JAD AYOUBI

PROFILE

Full Stack Developer with 3+ years of experience building scalable web and mobile applications. Specializing in React, React Native, Node.js, and Express.js, with strong expertise in frontend and backend development. Passionate about writing clean, maintainable code and delivering fast, secure, user-friendly products.

WORK EXPERIENCE

- Full Stack Web & App Developer JAN 2026 - PRESENT  
Pixel38
  - Develop responsive web applications using React.js & Next.js and cross-platform mobile applications with React Native, leveraging Zustand for efficient client-side state management.
  - Design and implement secure RESTful APIs with Node.js and Express.js for complex business logic, third-party integrations, and asynchronous processing using BullMQ.
  - Manage and optimize relational databases (MySQL, PostgreSQL) including schema design and query tuning.
  - Collaborate with designers and PMs to deliver client projects on time; maintain code quality through reviews and testing.
- Full Stack Web & App Developer OCT 2023 - DEC 2025  
SecuFleet
  - Built and maintained client and company websites & apps using React, React Native, Express.js, and MongoDB
  - Led a team of interns, assigning tasks and mentoring on full-stack development
  - Drove employer branding and collaborated with marketing and UI/UX teams
- Lab Instructor 2023 - 2025  
Beirut Arab University
  - Facilitated hands-on learning in Data Structures, Databases, and Web Development; managed labs, conducted weekly assessments, and provided experiment guidance and technical support.
- Key Projects
- Nevada
  - MERN Stack | JWT | Stripe | Vercel
  - Full-stack business management platform with a public-facing website and feature-rich admin dashboard.
  - JWT authentication, RESTful API, Stripe payments, and MongoDB — deployed on Vercel.
- Prestige Mist
  - MERN Stack | Cloudinary | Admin Dashboard
  - Production-ready web application for a commercial client with a fully responsive frontend and secure admin dashboard.
  - Implemented role-based administration, content publishing workflows, and API integration.
  - Database-driven page management allowing non-technical users to update website content without developer intervention.
  - Focused on performance optimization, scalability, and seamless user experience across devices.
